PITZONKA'S

Giant-Flowering Mixture of

PANSY PLANTS

ALMOST a half century ago we offered our Giant-flowering Mixture as our first mixture of Pansy Plants. Since that time we have been constantly working on its improvement to make it as desirable a mixture as can be produced in an all-purpose Pansy.

We now have what we consider a well-balanced mixture of high quality. The plants it produces are healthy, strong, and bloom freely. They are compact in habit of growth, an important feature for bedding Pansies, and prove equally as satisfactory for cut-flower purposes, as the stems are sturdy, stiff, and of good length. The flowers are veritable giants, with velvety, glistening petals. Colors range from delicate orchid and yellow to deep purple, blue and red. Unquestionably, this Giant-flowering Mixture of Pansy Plants is the most desirable all-purpose variety obtainable.

Regular Size Plants, 80 cts. per 100, \$6.00 per 1000; 5000 or more,
\$5.25 per 1000

Large Plants, \$1.20 per 100, \$9.75 per 1000

Not less than 50 at the 100 rate; 250 at the 1000 rate

BRISTOL PENNA.

SIMPLE . . . SUGGESTIONS

For Growing Pansies

We specialize in Pansy Plants and in Pansy Seed, and have had many years' experience in growing plants and in selecting strains and varieties. Naturally, we have learned many things about Pansies and are convinced that anyone can succeed in Pansy culture, provided the soil is in good condition and certain simple rules are obeyed. Here is some information that we know will be helpful.

1. Select a sunny location, but if possible a place that will receive some shade in the afternoon. Good garden soil will be satisfactory, provided drainage can be furnished; if drainage is lacking, raise the bed about 4 inches above the surrounding soil, adding a considerable amount of sand and plenty of humus.
2. Cover the entire bed with 1 inch or more of well-rotted stable manure if it can be obtained. If you cannot secure stable manure, use pulverized sheep- or cow-manure. This covering should be turned under to a depth of 6 to 8 inches, letting it stand for several weeks and dug back just before setting the plants.
3. If the soil on the bed is dry it should be soaked thoroughly and allowed to dry off until it is not sticky; then pulverize it to a depth of about 6 inches, firm it, and set the plants not less than 4 inches apart—a greater distance if you have the space. They should be set only as deep as they were in the nursery, and the crown should not be covered. Water the bed after planting and give shade during the middle of the day until the plants are well rooted.
4. After the plants have become well established, at intervals of 6 to 8 weeks, give an application of pulverized sheep- or cow-manure, or commercial fertilizer, which must be used strictly according to directions. Pansies are heavy feeders and in order to have large and richly colored flowers the soil must be very rich.
5. After the ground is frozen hard, a light mulch of hay or straw will be required. Do not cover the bed so heavily that the plants cannot be seen, or they will be smothered. In our nursery we find that about the middle of December is the proper time to cover the plants.

LARGE SIZE

REGULAR SIZE

Please study these two pictures. Both are much reduced from natural size, but they do tell a real story of Pitzonka's Pansy Plants.

The first picture shows the type, foliage, and the root-growth of our Large Pansy Plants. These Large Plants are a little older than the Regulars, are larger and better developed, and therefore bloom quicker and give large flowers from the start. The Large Plants are recommended for greenhouse Winter blooming.

One of Pitzonka's Regular Size Pansy Plants is pictured in the second illustration. These are younger plants, but are grown under exactly the same conditions and culture as the Large Plants. They will be a little longer in developing but will give just as fine flowers when fully grown. All they need is a little more time.

While Pansy Plants and Pansy Seed are important parts of our service to gardeners, we have other things that you may need. We invite you to send for

Our New Catalog of Hardy Plants

which presents novelties and old familiar plants that the well-planned garden demands.

When to Plant Pansy Plants

New England States and Great Lakes Regions, late September and early October.

Middle Atlantic States, all of October and early November.

Gulf States, all of November and early December.

Our season for shipping Pansy, Viola, Bellis, and Myosotis plants is from September 1 to May 1. Seeds are available at any season of the year.

PANSIES

Recent Novelties and Named Varieties

PITZONKA'S
GIANT-FLOWERING
MIXTURE

For description refer
to page 1

RECENT NOVELTIES

From the multitude of varieties that are introduced each year by foreign and American growers we have selected seven that we believe are best adapted to general garden use.

BERNA. A Swiss Giant with large, well-formed flowers of fine texture in a striking velvety violet-blue, with dark centers.

CORONATION GOLD. The largest pure golden yellow introduced so far. Flowers of heavy texture are produced on strong, stiff stems held well above the foliage. Given the All-America Award of Merit in 1937 and was one of the outstanding flower novelties for that year.

FIRE BEACON. Bright wallflower-red with a touch of orange. Unusual.

GIANT LAVENDER. Pleasing shade of lavender with slight variation. Flowers of fine texture borne well above the foliage on strong, stiff stems.

GIANT RED. Same type as preceding, in shades of red.

MAPLE LEAF, VIOLET JEWEL. Maple Leaf type with the same heavy foliage and large flowers. Rich purple.

SUPER MAPLE LEAF GIANTS. A distinct variety with thick foliage and flowers of heavy substance, 4 to 5 inches across. Stems are long enough to make it desirable for cut-flower purposes. A mixture of many colors and color combinations.

BABY PANSIES

Few Pansies are more lovely than this Baby type. In height it does not exceed 4 inches and has the same compact, bushy growth as the bedding Violas. Highly valuable for border and rockery.

Baby Delight. A light blue with somewhat waved petals.

Mrs. A. H. Scott. Deep purple-violet, shading off in the top petals to a white line. Much the same color as Lord Beaconsfield.

Prices of Novelties and Baby Pansies: 65 cts. for 25,
\$2.00 per 100 Not less than 50 plants at 100 rate

NAMED VARIETIES

FURNISHED IN SEPARATE COLORS

Frequently the gardener desires to use Pansy Plants to secure an immediate color scheme. They are especially desirable for edging hardy borders, for setting around a bed of tulips, for use in the rock-garden, or for outlining a cemetery lot or an individual grave. Pansies may be used in a multitude of ways, and these standard varieties will give you an opportunity to carry out many garden ideas. All of the plants are compact growers, yet the stems are not so short as to render the blooms useless for cutting. While the flowers are not quite so large as those of the mixed types, they will give a wonderful effect.

Alpenglow. Cardinal shades, with dark blotches.

Blue Boy. Clear and pure silvery lilac. A bed of this variety gives an effect of striking beauty.

Bronze. Peculiar shades in bronze.

Giant White. Pure white flowers somewhat larger than Snow Queen.

Golden Yellow. Rich yellow with large brown eye.

King of the Blacks. The nearest to black in Pansies.

Lake of Thun. True splendid ultramarine-blue. The most beautiful of all blue Pansies. An exact duplicate of the Emperor William with much larger flowers. Excellent when used with Yellow Master.

Lord Beaconsfield. Deep purple-violet shading off in the top petals to a white line. Fine for graves.

Royal. Deep purple; very pretty.

Yellow Master. A pure golden yellow, like Golden Queen, but the flowers are somewhat larger and of better form.

Regular Size Plants, 90 cts. per 100, \$7.50 per 1000
Large Plants, \$1.40 per 100, \$12.00 per 1000

We do not supply less than 50 plants of any one color.

PITZONKA'S

Prize Mixture

of

PANSY PLANTS

This has been selected for those who prefer a mixture made up of solid colors, pencil stripes, blotches, and but few of the variegated sorts. The plants it produces have the same healthy, robust habit of our Giant-flowering Mixture with shapely flowers of uniform size that are good for cut-flowers and bedding purposes. Colors range from shades of red and pink, rich yellow and bronze to orchid, blue, black, and lavender, and are rich and bright.

Regular Size Plants, \$1.40 per 100, \$10.00 per 1000
5000 or more, \$9.00 per 1000

Large Plants, \$2.00 per 100, \$15.00 per 1000

Pitzonka's Pansy Mixture for Cut-Flowers

A mixture of the Swiss Giant type. Fine, strong, stiff stems measuring 6 to 8 inches long. Flowers of fine texture in shades of red, blotched yellow, blue and many other variegated colors.

Regular Size Plants, \$1.40 per 100, \$10.00 per 1000
Large Plants, \$2.00 per 100, \$15.00 per 1000

Pitzonka's Prize Mixture of Pansy Plants

English Daisies

BELLIS PERENNIS

Especially adapted for bedding, for edging borders and pools, and extremely desirable for giving touches of color to the rock-garden in early Spring. In moist, shady places they will continue to bloom well into the Summer. The plants should be mulched lightly in sections of the country where the ground freezes. Cultural directions same as for pansies.

Longfellow. Rose color. Free blooming, but the flowers are smaller than those of the *Monstrosa* strain.

Monstrosa. Surpasses all others in vigorous growth and extra-long stems. Large double flowers. We offer *Monstrosa* **Dark Rose, Rose, White** and **Mixed Colors**.

Monstrosa tubulosa, Etna. Quilled flowers which are slightly smaller than the other *Monstrosa* varieties. The color is a beautiful dark red.

Plants, 80 cts. per 100, \$6.00 per 1000

Monstrosa, Crimson. *New.* Very large, deep crimson. Plants, \$1.00 per 100.

Crispa, Cherry. A compact, button type producing bright cherry-red flowers $\frac{1}{2}$ to $\frac{3}{4}$ inch in diameter on 6-inch stems. A very profuse bloomer. Plants, \$1.00 per 100.

Forget-Me-Not

MYOSOTIS

One of the old familiar garden plants adapted for bedding or for edgings in connection with pansies and Spring-flowering bulbs. In early Spring they are covered with dainty little flowers. *Myosotis* is a biennial, so plants set this Fall will bloom next Spring. It is advisable to give the plants slight protection during the Winter.

Alpestris, Victoria. Clusters of dainty, azure-blue flowers. Plant bushy in habit. 6 in.

Alpestris, Victoria, Indigo Blue. Similar in form to the preceding but the flowers are deeper blue.

Alpestris, Victoria, Rose.

Blue Basket. *Novelty.* A new introduction that is very desirable for bedding. Compact, low-growing plants producing flowers of a beautiful deep blue. \$1.50 per 100.

Robusta grandiflora. Clusters of clear blue flowers on stems about 10 inches long. The plants are extra-strong growers.

Plants, except where noted, \$1.00 per 100,
\$7.50 per 1000

AN ORDER MUST AMOUNT TO
\$2.00 OR MORE

VIOLAS...

Tufted Pansies

All varieties in this list are adapted for bedding purposes, and are almost indispensable for Spring gardening. Various colors can be selected to work out extremely interesting color schemes. If the plants are set in the early Fall so they may be established before freezing weather, they will give an abundance of flowers in the early Spring. If dead blossoms are removed regularly, new flowers will appear and the plants will continue to bloom throughout the Summer. If the plants become too tall during the Summer months, they may be cut back and allowed to produce new foliage. Violas are perfectly hardy and may be given the same treatment as pansies.

Recent Viola Novelties

ARKWRIGHT RUBY. Large-flowering type. Color a beautiful bright rosy crimson, with terra-cotta shadings, making it an outstanding variety. It has the added attraction of being very fragrant. A most desirable addition to the Viola group.

CHANTREYLAND. After two years of careful observation we decided to offer Chantreyland instead of Apricot Queen. It is a more decided apricot, a heavier grower, flowers are larger, and stems longer. We consider it better in every way than Apricot Queen.

FLORARIENSIS. An alpine prize developed by Monsieur Correvon. Mottled blue and white flowers in profusion appear in April and continue through the Summer. Fine for the rockery.

YELLOW GEM. Another large-flowered, deep pure yellow. Plants robust and very free flowering.

SMALL-FLOWERING VARIETIES

BOSNIACA. Deep pink. Dwarf; free flowering. Excellent for rockeries and edgings as it blooms the entire season. Thrives best in a sunny place.

BOWLES' BLACK. An interesting novelty that makes a fine bedder. Upright plants are literally covered with small purple-black flowers with a tiny eye of gold. Blooms the entire season.

JOHNNY-JUMP-UP. The old popular favorite with its small Pansy faces in variable combinations of purple, blue, and yellow. Gives a colorful show during the Summer.

Plants, \$2.00 per 100

Not less than 10 plants of any one of the above Novelties

Violas adorning garden steps, growing in a soil pocket especially prepared for them at the back of the stone treads

Violas You Should Grow

Admiration. Deep violet. Well named because of its beauty.

Blue Perfection. Light blue with yellow eye. A very free-flowering variety.

Lutea Splendens. Rich golden yellow. Lovely when used with the blue varieties.

White Perfection. Clear white. One of the most desirable sorts.

Mixed Varieties. For this mixture we grow many different varieties, so there may be a wide range of color. A hundred plants will make a gorgeous showing.

Plants, \$1.00 per 100, \$7.50 per 1000

Not less than 25 plants will be furnished in any one color

White Perfection

Chantreyland

Admiration

PANSY SEED

Those gardeners—professional or amateur—who wish to grow their own plants should be sure that the seed is the best obtainable. It must be properly matured and harvested; it must be fresh; it must be strictly true to variety name. Pitzonka's Pansy Seed fills all these demands. The seed-stock plants are grown in our own fields by experienced men; at the proper time the seed is harvested, cleaned, and stored under conditions that insure a high percentage of germination. And, of course, the seed is absolutely true to variety—our methods insure that point.

ENGLISH DAISY SEED

BELLIS PERENNIS

Particularly desirable as a low border plant, as it rarely grows more than 6 to 7 inches in height. The flowers, which are button-shaped, not more than 1½ inches in diameter, are produced very freely in May and June. The seed of the varieties here listed are guaranteed fresh and of high germination. The directions for growing pansies may be applied to the English Daisies.

HEMEROCALLIS

DAY-LILY

The modern Day-Lily is one of the most satisfactory garden plants obtainable. They thrive in most any kind of soil, are not bothered by bugs or disease, and a mature plant will open flower after flower, day after day, from a number of stems, over a long period. By selection of varieties one can now have them blooming from early Spring, all through Summer and way into the Fall, in all the shades of yellow and orange. Plant a row of them or place in clumps in the perennial border.

- Amaryllis.** (Betscher.) Soft yellow with a deeper infusion of orange-yellow; recurved petals. Midseason. 2½ ft. \$1.00 each.
- Apricot.** Deep orange flowers in early Spring. Medium height. 30 cts each.
- Aurantiaca.** Large, trumpet-shaped, pleasing neutral orange blooms, with stamens and reverse of petals bright Indian yellow; sweet scented. June, July. 3 to 4 ft. 30 cts. each.
- Bay State.** (Betscher.) Brilliant, glistening deep yellow, the petals having a distinctive wavy edge. One of the heaviest and most persistent bloomers. Midsummer. \$1.00 each.
- D. D. Wyman.** (Betscher.) Very large golden yellow flower with a tawny splash across each petal. Midsummer. \$1.00 each.
- Dr. Regel.** Handsome, rich orange-yellow flowers in early May and June; very fragrant. Fine for cutting. 1½ ft. 40 cts. each.
- Flava** (Lemon Lily). Sweet-scented, full, clear yellow flowers in June. 2½ ft. 30 cts. each.
- Florham.** Large, trumpet-shaped, rich golden yellow flowers, with Indian yellow markings. A strong grower. June, July. 3 to 3½ ft. 55 cts. each.
- Goldeni.** (Betscher.) Well named. The many fine deep golden orange flowers are produced freely in early July. Vigorous in habit and a most effective garden variety. 3 ft. \$1.50 each.
- Gypsy.** (Betscher.) Brilliant deep orange flowers on 3-foot, slender stems. A showy plant for the small border. July, August. \$1.00 each.
- J. A. Crawford.** (Betscher.) One of the finest Day-Lilies. Flowers of fine size, a combination of apricot and yellow—a unique tone. July, August. 3 ft. \$1.00 each.
- J. R. Mann.** (Betscher.) Glistening, large, open flowers of frosted apricot and yellow. One of the handsomest of Betscher's hybrids. July, August. 3½ ft. \$1.00 each.
- Kwanso.** Large, double flowers of a rich golden bronze during July and August. 30 cts. each.
- Mandarin.** Clear lemon-yellow, with greenish east in the heart of each blossom. Very tall, wide-open, recurved type of flower. August. 75 cts. each.
- Mrs. A. H. Austin.** (Betscher.) Extra-fine, deep golden orange; very heavy texture. One of the very largest Day-Lilies. Midseason. \$1.00 each.
- Mrs. W. H. Wyman.** (Betscher.) Lovely pale lemon-yellow flowers on 4-foot stems in August. Blends nicely with blue-flowering perennials. 75 cts. each.
- Ophir.** Golden, waxy yellow flowers 5 inches across, 6 inches long, stems 4 to 5 feet high. Early July to late August. \$1.00 each.
- Sir Michael Foster.** Fine, clear apricot-yellow, sweet-scented flowers with extra-long, funnel-shaped throats, measuring 5 to 6 inches across. June, July. 4 ft. \$1.00 each.
- Thunbergi.** Pale yellow blooms on stems 2 to 3 feet tall. July. 30 cts. each.

Directions to Customers

ORDERING

We aim to execute orders as soon as received, but in the rush season slight delays are unavoidable, and when such is the case an acknowledgment will be sent at once. If you order early and give a shipping date, we will be pleased to ship so that the orders reach their destination on or about the date specified. When no shipping instructions are given, orders are filled in the rotation in which they are received.

TERMS

Those desiring to open accounts will please furnish references from three parties with whom they have had credit relations and allow sufficient time for us to investigate; otherwise cash must accompany order.

Remittances should be made by Post Office Money Orders, Drafts on New York or Philadelphia banks, or Express Money Orders, in amount sufficient to cover the complete order. Where it is impossible to obtain these, the letter should be registered. We cannot guarantee receipt of money sent in any other way. We reserve the right to decline C.O.D. orders.

No charge is made for boxes or packing, *except on shipments sent Parcel Post prepaid*, and the additional cost for packing, and postage on these is covered by the additional 10, 15, and 20 per cent as per table of rates.

In filling out your order, always give shipping directions, and write *Name and Address distinctly* on each and every order.

SHIPPING

It is customary for our patrons to receive their orders from us in perfect condition. However, there are times when plants arrive slightly withered. When that happens, place only the roots in water, in order to revive them. Never set out a withered plant.

Claims for shortage, etc., must be made within five (5) days after receipt of goods.

HOW WE SHIP

All orders are forwarded by Express or Parcel Post, purchaser paying charges. For those of our customers who wish their orders sent by Parcel Post, prepaid, additional charges must be added for special packing and postage. Rates as per states are listed hereon.

NEW AND POPULAR PERENNIAL PLANTS

For Complete List of Perennial Plants, Ask for Our Complete Catalog

AETHIONEMA persicum. A choice little alpine for the rockery with steel-gray foliage that is very compact and low-growing. During June the plant is filled with little bracts of rose-pink flowers. 8 in. 90 cts. for 3, \$2.50 for 10.

ALYSSUM saxatile compactum. Indispensable for rockery or border, growing 1 foot high and producing masses of broad, flat heads of bright yellow flowers in May. 75 cts. for 3, \$2.00 for 10.

ANCHUSA Barrelieri. Earliest dwarf dark blue variety, growing about 2½ feet high. The desirable feature is that it does not grow as high as Italica, making it a nicer border type. 75 cts. for 3, \$2.00 for 10.

AQUILEGIA flabellata nana. This delightful dwarf variety is highly recommended for the rockery. Blue and white flowers on erect stems 1 foot long in May and June. 75 cts. for 3, \$2.00 for 10.

Longissima. New. An extremely long-spurred strain with very graceful and beautiful flowers of very pale yellow. \$1.50 for 3, \$4.50 for 10.

Mrs. Scott Elliott's Strain. Long-spurred variety made up of wonderful colors and color combinations. 75 cts. for 3, \$2.00 for 10.

Red Riding Hood. New. An interesting variety of double form. Outside petals old-rose with a pure white, double center. 2 ft. \$1.50 for 3, \$4.50 for 10.

ASTER, Red Rover. Deep rosy red flowers with golden centers. Compact habit. 3 to 4 ft. September to frost. \$1.00 for 3, \$3.00 for 10.

Wonder of Staefa (Frikarti). A Swiss novelty, ever-blooming perennial. Clear azure-blue flowers about 3 inches in diameter. A continual bloomer from June until after heavy frosts in November. This variety is entirely distinct from other hardy Asters; it is a hybrid. 3 ft. \$1.50 for 3, \$4.50 for 10.

New Dwarf Hybrid Border Asters:

Countess of Dudley. Clear pink; yellow eye.

Lady Henry Maddocks. Clear pale pink blooms.

Nancy. Pale flesh-pink.

Ronald. Rose-pink buds; bright lilac-pink blooms.

Snowsprite. White.

Victor. Clear lavender-blue.

90 cts. for 3, \$2.50 for 10

CHRYSANTHEMUM maximum, Double White Swan. Solid, double, pure white flowers are produced in June on good wiry stems from 1½ to 2 feet long. A Daisy that will compare with double pyrethrums. \$1.20 for 3, \$3.50 for 10.

DOUBLE KOREAN CHRYSANTHEMUMS for 1938.

Caliph. New. Ox-blood-red with a rich velvety sheen or glow so prominent that it stands out conspicuously among all other Chrysanthemums of this color. Remarkably free flowering and in full bloom by October 10. 2½ ft. 60 cts. each, \$1.65 for 3.

Mandarin. New. Coral, salmon, copper, and bronzy gold blend to a delightful combination. An iridescent glow, changing with the degree of light, is so prominent that the color-effect, never exactly the same, is lovely even after the flower matures. Perfectly formed double flowers, 2½ inches across, are carried profusely on erect, wiry stems. October 10. 2 ft. 60 cts. each, \$1.65 for 3.

Saladin. New. Oriental red, shading to coral-red with coppery tones showing on the petal reverse. Individual blossoms are 3 inches or more across and have four rays of petals. October 10. 2½ to 3 ft. 60 cts. each, \$1.65 for 3.

Symphony. New. Mauve-rose overcast soft coppery rose, with the sheen of a damask silk. Large, nicely formed, 3-inch flowers are carried on heavy, sturdy stems. October 10. 2½ to 3 ft. 60 cts. each, \$1.65 for 3.

DELPHINIUM Belladonna, Cliveden Beauty. The freest and most continuous-blooming of all the Delphiniums. The clear turquoise-blue of its flowers is not equaled for delicacy and beauty. 60 cts. for 3, \$1.50 for 10.

Bellamosum Improved. This is a rich deep blue form of the above, having the same free-blooming and other good qualities. 60 cts. for 3, \$1.50 for 10.

Chinense, Blue Butterfly. A distinct and neat variety growing about 1 foot high, with fine, feathery foliage and freely producing large blossoms of rich ultramarine-blue. 60 cts. for 3, \$1.50 for 10.

Chinense alba. White form of above. 60 cts. for 3, \$1.50 for 10.

Giant Pacific Hybrids. A new strain of hybrid Delphinium. Has wiry, slender stems and a large percentage of the plants have proved decidedly resistant to mildew. Includes a magnificent range of clear colors as well as pastel shades. \$1.35 for 3, \$4.00 for 10.

DIANTHUS barbatus (Sweet William), Pink Beauty. This lovely salmon-rose Dianthus should be in every garden. 60 cts. for 3, \$1.50 for 10.

Barbatus, Scarlet Beauty. Intense, bright scarlet flowers. 60 cts. for 3, \$1.50 for 10.

Beatrix. Light salmon-pink, blooming from May to frost. 90 cts. for 3, \$2.50 for 10.

DICENTRA spectabilis (Bleeding-heart). An old-fashioned favorite. Its long racemes of graceful, heart-shaped pink flowers in May and June are always attractive. Perfectly at home in any part of the hardy border, and especially valuable for planting in the shade. 1 to 2 ft. \$1.00 for 3, \$3.00 for 10.

DORONICUM excelsum. Large, bright yellow, daisy-like flowers, and one of the most effective very early Spring-flowering perennials. It succeeds everywhere and is very attractive when planted in clumps. 2 ft. 90 cts. for 3, \$2.50 for 10.

GAILLARDIA, Goblin. Especially suitable for the rock-garden. The dwarf plants, 12 to 16 inches high, form broad bushes of close, compact habit. Bright yellow blooms with deep red zones. 90 cts. for 3, \$2.50 for 10.

Sun God. Pure golden yellow, absolutely free from markings of any kind, with a prominent golden yellow center. The gorgeous flowers, almost 4 inches across, are produced on rigid, wiry, clean-cut stems, often 2 feet or more in height. Flowers freely from late June and intermittently throughout the season. 90 cts. for 3, \$2.50 for 10.

GYPSOPHILA repens Bodgeri. A new variety that is valuable for both rock-garden and cut-flower purposes. Produces double white flowers which in three to four days turn to flesh-pink. It is an ever-bloomer, flowering from early Spring until late Fall. Flowers resemble those of Bristol Fairy. Grows 1 foot high. 90 cts. for 3, \$2.50 for 10.

Bristol Fairy. A wonderful introduction producing large panicles of double white flowers in which the individual blossom is larger, and the purest white. It also flowers continuously throughout the Summer. \$1.50 for 3, \$4.50 for 10.

PLATYCODON grandiflorum præcox giganteum. An extra-early flowering variety with magnificent blue flowers measuring as much as 4 inches across. The sturdy plants bloom profusely from August until frost. 2½ ft. 90 cts. for 3, \$2.50 for 10.

PRIMULA acaulis cærulea. A most novel variety with deep purple-blue flowers of large size. Early. \$1.00 for 3, \$3.00 for 10.

Veris elatior gigantea. Very effective for a mass planting in beds. Flowers of the bunch type on 8 to 10-inch stems. April. Individual florets average ½ inch in diameter. **Pure White** or **Pure Yellow.** 75 cts. for 3, \$2.00 for 10.

One plant of each, \$2.50

ORIENTAL POPPY

Oriental Poppy Collection

Beauty of Livermore (deep ox-blood-red)

May Sadler (salmon-pink)

Perry's White (white)

Mahony (mahogany)

Jeannie Mawson (geranium-pink)

One plant of each, \$2.25

PHLOX decussata, Attraction. Full, large heads of deep salmon-pink overlaid with an orange glow, crimson eye. A strong grower of medium height, and an extremely lovely Phlox. 75 cts. for 3, \$2.00 for 10.

Caroline Vandenberg. True lavender-blue with large individual flowers. 90 cts. for 3, \$2.50 for 10.

Daily Sketch. A splendid and worthwhile English novelty of salmon-pink with a vivid crimson eye. The flower-trusses are enormous and the individual florets extra large. 3 ft. \$1.00 for 3, \$3.00 for 10.

Enchantress. Bright salmon-pink with a dark eye. A very strong grower. 75 cts. for 3, \$2.00 for 10.

Leo Schlageter. Vigorous, healthy grower with large, pyramidal clusters of bright scarlet-carmine overlaid with orange. Very brilliant. \$1.00 for 3, \$3.00 for 10.

Mrs. Jenkins. Pure white, late flowering. 75 cts. for 3, \$2.00 for 10.

Rheinlander. Beautiful salmon-pink with claret-red eye. 75 cts. for 3, \$2.00 for 10.

VERONICA, Blue Spire. Lovely deep blue spikes. The foliage is clean and plant is of bushy, upright habit, blooming throughout the early Summer and withstanding hot and dry weather without suffering. A very worth-while border plant, 2 feet high. \$1.00 for 3, \$3.00 for 10.

VIOLA, Beauty of Larone. New. Immense flowers often 4 inches across in Spring, early and continuous flowering, hardiness, and an attractive violet-blue color make this a worthwhile addition. \$1.20 for 3, \$3.50 for 10.

Maggie Mott. Deep lavender, with center fading to cream; yellow eye. Hardy to cold but should be lightly shaded in Summer and planted in a moist situation. Blooms entire season. \$1.00 for 3, \$3.00 for 10.
